## Intended use

Your Black & Decker light bar has been designed for providing illumination for DIY projects and leisure use. This product is intended for consumer use only.

## Safety instructions

**Warning!** When using battery-powered appliances, basic safety precautions, including the following, should always be followed to reduce the risk of fire, leaking batteries, personal injury and material damage.

- ♦ Read all of this manual carefully before using the appliance.
- ♦ The intended use is described in this manual. The use of any accessory or attachment or the performance of any operation with this appliance other than those recommended in this instruction manual may present a risk of personal injury.
- ♦ Retain this manual for future reference.

## Using your appliance

Always take care when using the appliance.

- ♦ Do not immerse the appliance in water.
- ♦ Do not open body casing. There are no user-serviceable parts inside.
- ♦ Do not operate the appliance in explosive atmospheres, such as in the presence of flammable liquids, gases or dust.
- ♦ To reduce the risk of damage to plugs and cords never pull the cable to remove the plug from a socket.

## Safety of others

- ♦ This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- ♦ Children should be supervised to ensure that they do not play with the appliance.

## After use

- ♦ When not in use, the appliance should be stored in a dry, well ventilated place out of the reach of children.
- ♦ Children should not have access to stored appliances.
- ♦ When the appliance is stored or transported in a vehicle it should be placed in the boot or restrained to prevent movement following sudden changes in speed or direction.
- ♦ The appliance should be protected from direct sunlight, heat and moisture.

## Inspection and repairs

- ♦ Before use, check the appliance for damaged or defective parts. Check for breakage of parts, damage to switches and any other conditions that may affect its operation.
- ♦ Do not use the appliance if any part is damaged or defective.
- ♦ Have any damaged or defective parts repaired or replaced by an authorised repair agent.
- ♦ Never attempt to remove or replace any parts other than those specified in this manual.

## Specific safety instructions for light bars

- ♦ Inspect the lens for damage following impact or if the light bar is dropped. Do not operate without the lens in place or with a damaged lens.
- ♦ Never look directly into the light or shine the light into another person's eyes.
- ♦ Do not immerse light bar in water.

## Additional safety instructions for batteries and chargers

### Batteries

- ♦ Never attempt to open for any reason.
- ♦ Do not expose the battery to water.
- ♦ Do not expose the battery to heat.
- ♦ Do not store in locations where the temperature may exceed 40°C.
- ♦ Charge only at ambient temperatures between 10°C and 40°C.
- ♦ Charge only using the chargers provided with the appliance/tool.
- ♦ When disposing of batteries, follow the instructions given in the section "Protecting the environment".
- ♦ Do not damage/deform the battery pack either by puncture or impact, as this may create a risk of injury and fire.
- ♦ Do not charge damaged batteries.
- ♦ Under extreme conditions, battery leakage may occur. When you notice liquid on the batteries, carefully wipe the liquid off using a cloth. Avoid skin contact.
- ♦ In case of skin or eye contact, follow the instructions below.

**Warning!** The battery fluid may cause personal injury or damage to property. In case of skin contact, immediately rinse with water. If redness, pain or irritation occurs seek medical attention. In case of eye contact, rinse immediately with clean water and seek medical attention.

### Chargers

Your charger has been designed for a specific voltage. Always check that the mains voltage corresponds to the voltage on the rating plate.

**Warning!** Never attempt to replace the charger unit with a regular mains plug.

- ◆ Use your Black & Decker charger only to charge the battery in the appliance/tool with which it was supplied. Other batteries could burst, causing personal injury and damage.
- ◆ Never attempt to charge non-rechargeable batteries.
- ◆ If the supply cord is damaged, it must be replaced by the manufacturer or an authorised Black & Decker Service Centre in order to avoid a hazard.
- ◆ Do not expose the charger to water.
- ◆ Do not open the charger.
- ◆ Do not probe the charger.
- ◆ Do not cover the charger.

The appliance/battery must be placed in a well ventilated area when charging.

**The following symbols are found on your charger:**

Your charger is double insulated; therefore no earth wire is required.

Fail-safe isolating transformer. The mains supply is electrically separated from the transformer output.

The charger automatically shuts off if the ambient temperature becomes too high. As a consequence the charger will be inoperable. The charger must be disconnected from the mains supply and taken to an authorised service centre for repair.

The charger is intended for indoor use only.

## Electrical safety

The charger is double insulated; therefore no earth wire is required. Always check that the power supply corresponds to the voltage on the rating plate.

- ◆ If the supply cord is damaged, it must be replaced by the manufacturer or an authorised Black & Decker Service Centre in order to avoid a hazard.

## Features

This appliance includes some or all of the following features:

1. Flexible hook
2. LED light bar
3. Battery status LED
4. On/off/brightness switch
5. Charging socket
6. Mains charging adaptor
7. Charger jack plug

## Use

### Charging the light bar (fig. A)

- ◆ Insert the charger jack plug (7) into the charging socket (5).
- ◆ Insert the mains charging adaptor (6) into a mains power socket.
- ◆ The red battery status LED (3) will light to show that the battery is charging.
- ◆ Do not charge for more than 40 hours.
- ◆ Remove the mains charging adaptor (6) from the charging socket (5).
- ◆ After charging, wait for 5 minutes before using the light bar.

### Using the flexible hook (fig. B and C)

- ◆ The flexible hook (1) may be used to store, support or suspend the light bar.
- ◆ The flexible hook allows the light bar to be set in any position (fig. B).
- ◆ Make sure that the flexible hook is secure around the supporting object.

### Operating the light bar

- ◆ Press the on/off/brightness switch (4) once for the high brightness setting.
- ◆ Press the on/off/brightness switch (4) again for the low brightness setting.
- ◆ To turn the light bar off, press the on/off/brightness switch (4) a third time.

## Maintenance

- ◆ Your Black & Decker corded/cordless appliance/tool has been designed to operate over a long period of time with a minimum of maintenance. Continuous satisfactory operation depends upon proper appliance/tool care and regular cleaning.

**Warning!** Before performing any maintenance on corded/cordless appliances/tools.

- ◆ Switch off and unplug the appliance/tool.
- ◆ Or switch off and remove the battery from the appliance/tool if the appliance/tool has a separate battery pack

- Or run the battery down completely if it is integral and then switch off.
- Unplug the charger before cleaning it. Your charger does not require any maintenance apart from regular cleaning.
- Regularly clean the ventilation slots in your appliance/tool/charger using a soft brush or dry cloth.
- Regularly clean the housing using a damp cloth. Do not use any abrasive or solvent-based cleaner.
- Regularly open the chuck and tap it to remove any dust from the interior (if applicable).

## Protecting the environment

Separate collection. This product must not be disposed of with normal household waste.

Should you find one day that your appliance needs replacement, or if it is of no further use to you, think of the protection of the environment. Black & Decker repair agents will accept old Black & Decker tools and ensure that they are disposed of in an environmentally safe way.

Separate collection of used products and packaging allows materials to be recycled and used again. Re-use of recycled materials helps prevent environmental pollution and reduces the demand for raw materials.

Local regulations may provide for separate collection of electrical products from the household, at municipal waste sites or by the retailer when you purchase a new product.

Black & Decker provides a facility for the collection and recycling of Black & Decker products once they have reached the end of their working life. To take advantage of this service please return your product to any authorised repair agent who will collect them on our behalf.

You can check the location of your nearest authorised repair agent by contacting your local Black & Decker office at the address indicated in this manual. Alternatively, a list of authorised Black & Decker repair agents and full details of our after-sales service and contacts are available on the Internet at: [www.2helpU.com](http://www.2helpU.com).

Black & Decker batteries can be recharged many times. At the end of their useful life, discard batteries with due care for our environment:

- Do not short-circuit the battery terminals.
- Do not dispose of the battery in fire, as this may result in an explosion.
- Be aware that the battery is heavy.

- Run the battery down completely, then remove it from the appliance.
- NiCd, NiMH, Lithium Ion and Lead Acid (Pb) batteries are recyclable. They must not be disposed of with household waste. Place the battery in suitable packaging to ensure that the terminals cannot be short-circuited. Take the battery to any authorised repair agent or a local recycling station.

## Guarantee

Black & Decker is confident of the quality of its products and offers an outstanding guarantee. This guarantee statement is in addition to and in no way prejudices your statutory rights. The guarantee is valid within the territories of the Member States of the European Union and the European Free Trade Area.

If a Black & Decker product becomes defective due to faulty materials, workmanship or lack of conformity, within 24 months from the date of purchase, Black & Decker guarantees to replace defective parts, repair products subjected to fair wear and tear or replace such products to make sure of the minimum inconvenience to the customer unless:

- ◆ The product has been used for trade, professional or hire purposes.
- ◆ The product has been subjected to misuse or neglect.
- ◆ The product has sustained damage through foreign objects, substances or accidents.
- ◆ Repairs have been attempted by persons other than authorised repair agents or Black & Decker service staff.

To claim on the guarantee, you will need to submit proof of purchase to the seller or an authorised repair agent. You can check the location of your nearest authorised repair agent by contacting your local Black & Decker office at the address indicated in this manual. Alternatively, a list of authorised Black & Decker repair agents and full details of our after-sales service and contacts are available on the Internet at:
